The Ostrich's Digestive Powers.

Ostriches have so frequently given extraordinary proof of their immunity from indigestion that men have ceased to be surprised at the museums which are periodically removed from the stomach of dead specimens. There is still, however, room for a good deal of astonishment and some reflection. In their anxiety to secure as much meat as they can in as short a time as possible, they swallow their food, and any foreign matter that may be adhering to it, precipitately, and are consequently very uncomfortable and melancholly. Birds are liable to the same affliction, and there is no mistaking the inconvenience, tending to low spirits, which our caged pets undergo when they have been overindulging in the pleasures of the table. The "sparrow-camel," however, hardly deserves to be called a bird, and it certainly is not a beast so that analogies drawn from either order are scarcely applicable.

At the first settlement of the world, according to Oriental tradition, all the creatures upon it were called up by Allah to be taught their several habits of life and to have their places on the earth allotted to them. The birds appeared, "the total kind of birds, in orderly array on wing," but the ostrich, seeing all the little feathered things go flying by, scorned to join them, and came to the conclusion that he could not be a bird In his pride he disregarded the summons, saying to himself, "I suspect I am a beast." It was, however, the turn of the beasts next, and to the dismay of the ostrich he found that all of them had four legs apiece; but remarking that they had no plumes, he recovered his self-complacency. "It is evident now," said he, "that I am not a beast; so it is probable that I am an angel." When the beasts had dispersed, the ostrich found himself alone with the bat; and Allah, looking out upon the great parade ground, saw these two standing together in expectation of a special summons; but he put a public affront on them by pretending not to notice them, and retired without assigning either of them anyfixed place in creation. The bat has been so ashamed of himself ever since that he only goes abroad when it is getting dark, and the ostrich withdre wnto the solitude of the desert. There it behaves as it likes, and regardless of the proprieties. Though a bird, it has never tried to make a nest: and though not a beast it lows and roars like one, It lays eggs like a fowl, but crops the herbage like cattle, wears hair on its back though it has only two legs; and is altogether an irregular and self-opinionated person. That such a creature should go picnicing off an ironmonger's stock-in trade is, therefore, no more than might be expected from its eccentric habits; and the pretence that it eats tenpenny nails to help its digestion can only be accepted as a discreditable evasion of the truth.

In Rome the other day an ostrich managed to suffocate iself by pushing its neck through between two bars, swallowing a bunch of keys that had been dropped outside, and then trying to get its head back again. The result was that it was choked and on its stomach being examined for missing property the usual assortment of stones, nails, coins, and beads was discovered, with, however, the interesting addition of a silver medal of the Pope and the cross of an Italian order. By whom or when these honorable decorations were conferred upon the sparrow-camel, no one knows; but the ostrich, it seems, did its best to show its appreciation of the distinction accorded it, and swallowed both the medal and the order. It had no buttonhole from which to display its honors, but at all events it had a coat—to its stomach. —London Telegraph.

A FREEZING FUTURE.—Henri Vivarez says: From the summit of the mountain a winding sheet of snow will descend upon the high plateaus and the valleys, driving before it life and civilization, and masking forever the cities and nations that it meets on its passage. Life and human activity will press insensibly toward the inter-tropical zone. St. Petersburg, Berlin, London, Paris, Vienna, Constantinople, and Rome will fall asleep in succession under their eternal shroud. During very many ages equatorial humanity will undertake Arctic expeditions to find again under the ice the place of Paris, Lyons, Bordeaux, and Marseilles. The sea-coast will have changed, and the geographical map of the earth will have been transformed. No one will live and breath any more except in the equatorial zone up to the day when the last family, nearly dead with cold and hunger, will sit on the shore of the last sea in the rays of the sun which will thereafter shine here below on an ambulant tomb, revolving aimlessly around a useless light and a barren heat.

The papers are constantly telling us how to live on $2 a week. It is undoubtedly a very difficult problem, but by no means the most difficult. The world would be far wiser and happier if some brilliant genius would only tell us how to get the $2.

Taking Advantage of Leap Year.

A Detroiter, who was out in the country the other day to look after some poultry, got stuck in a mud-hole, although having a light buggy and a strong horse. He got out, took a rail off the fence, and was trying to pry the vehicle out, when along came a strapping young woman about 20 years of age. She halted, surveyed the situation, and said:

"You stand by the horse while I heave on the rail, and don't be afraid of getting mud on your hands and boots."

Their united efforts released the vehicle, and the Detroiter returned thanks and asked her to get in and ride. She hesitated, looked up and down the road, and finally said:

"Stranger, I'm blunt spoken. Who are you?"

He gave his name and residence, and she continued.

"I'm over 25, worth $500 in cash, know all about housework, and this is leap year."

"Yes, I know, but for heaven's sake don't ask me to marry you!" he replied, as he saw the drift.

"See here," she continued, looking him square in the eye, "I'm a straight girl, wear a No. 7 shoe, and I like the looks of you."

"Yes, but don't—don't talk that way to me!"

"Stranger, its leap year, and I'm going to pop. Will you have me or no?"

"I—I'm already married!" he faltered

"Honest Injun?"

"Yes."

"Well, that settles me and I won't ride. I'll take a cut across the field over to old Spooner's. He's got four sons and a fool nephew, and I'll begin on the old man and pop the crowd clear down to the idiot, for I've slummixed around this world just as long as I'm going to! Good-bye, sir—no harm done!"

A NOTED DUEL.—An old man residing in the vicinity of Bowling Green, Ky., has recently given some details of a duel fought by Gen. Sam. Houston, in 1826. To adjust a quarrel Gen. Sam. Houston, then a member of Congress from Tennessee, and Gen. White, of Nashville, agreed that "on September 23, 1826." they would "fight a duel on the Tennessee line; time, sunrise; distance, fifteen feet; weapons, holster pistols." Houston got out of bed at 3:40 A. M., on the 23d, and, sitting in his night-clothes, moulded two bullets. As the first fell from the mould a dog named Gen. Jackson raised a triumphant howl under the window. When the second bullet dropped, a game cock crowed long and loud from a neighboring tree. Houston, who was superstitious, cut the figure of a dog on one bullet and that of a cock on the other. The principals stood at their posts on the second and to the inch. White's lead cut a whistle through the sharp air, but Houston stood unhurt. At the same instant the bullet with the dog mark passed clean through White's body, so that a silk handkerchief was drawn from one side to the other. After the duel Houston selected as his coat-of-arms the famous "chicken-cock and dog."

JUVENILE SMOKERS.—A British physician observing the large number of boys under 15 years of age on the streets with cigars and pipes in their mouths, was prompted to examine the breath of this class of smokers, and for that purpose selected 38 boys between the ages of 9 and 15. In 23 of these cases he found various disorders of the circulation and digestion; palpitation of the heart, and more or less marked taste for strong drink. In 13 there was frequent bleeding of the nose, and 12 had slight ulceration of the mouth caused by tobacco. The doctor treated them for ailments, but with little effect, until the habit of smoking was discontinued, when breath and strength were soon restored. The effect of tobacco in creating a taste for strong drink is unquestionably very great. If the testimony of some tobacco users and medical men is of any weight, one of the most radical methods of keeping the young from being led to intemperate drinking is to deny them tobacco.—Sanitarian.

A widower and widow were engaged to be married in Bristol, R. I. She had agreed to provide the wedding entertainment, and she did so with extreme liberality. Five hundred guests, including the Common Council as an unofficial body, assembled at the appointed time, but the bridegroom did not come. The assembly drank immoderately, and then, for amusement, flung ice cream and pie at the minister. An expedition to discover the widower resulted in the shattering of all the windows in his house and finally the police made score of arrests.

Somewhat of a new feature in life insurance is taking out of policies on the lives of members of a firm for the benefit of the firm. If a firm owes heavily it can insure the life of a member or members whose death and consequent withdrawal of capital would severely cripple the business.

NATIONAL REPUBLICAN NOMINATIONS.

FOR PRESIDENT.

JAMES A. GARFIELD,

Of Ohio.

FOR VICE PRESIDENT.

CHESTER A. ARTHUR,

Of New York.

Election, Tuesday, November 2, 1880.

WASHINGTON LETTER.

WASHINGTON, D. C. July 26th, 1880.

From a business point of view a Democratic victory in November means National calamity. There is no doubting the fact that a general upturning of the financial policy of the government would follow the accession to power of the Democratic party. While this may not be the one issue of the campaign, it will be a powerful one to our business men, who, of course, will know that when the various laws enacted several years ago, and to the operation of which we owe our present sound and prosperous condition, were under consideration, they were violently opposed by the Democratic party, and that even after their adoption every obstacle was thrown in their way. The Democratic party is also pledged to abolish the protective tariff, so necessary to the life of our infant manufacturer, and what manufacturer, no matter what his personal preferences may be, will vote for the party that proposes to remove from the statute books the laws which protect him from competition with foreign cheap labor. They propose too, to remove, or at anyrate, to greatly reduce, the tax on tobacco and whiskey, and of course the deficit in the revenue would have to be made up by placing increased taxation on articles of necessity or luxury, which would place the enjoyment of them beyond the reach of many. I am firmly of the opinion that this issue with the business interests of the country is one that should be investigated by those who propose to vote the Democratic ticket. It is growing in importance. Secretary Schurz gave it prominence in his recent speech at Indianapolis, and I doubt not his example will be followed by the leading speakers of the party. To all who desire the continuance of the present safe, conservative, honorable policy of the government, there is but one choice in this contest.

It is now beyond question that a larger number of prominent Republicans will take part in the ceremonies preceding the Democratic burial in November, than at any contest for years. They know, of course, that the vital interests of the Nation are at stake, and to make the victory sure and certain, all must work with a vim. President Hayes, it is said, will set a good example by making a few campaign speeches during his visit to the Pacific Coast, and that the Cabinet officers will be in the field.

Senator Bruce, of Mississippi is to take an active part in the Maine campaign. He will also make several speeches in Ohio and Indiana.

General Hancock, it is said, has furnished his letter of acceptance, and is delaying its issue until that of Mr. English is ready. These letters have been anxiously waited for, I may say prayed for by the Democrats. They cannot commence their campaign until they have them. They are without ammunition to fight with; and fondly hope Hancock's letter will furnish them some new battle cry. As yet the only issue put forward with Hancock, is, "He will take his seat."

MAXWELL

The San Francisco Call says that Captain Hillyer, of the three-masted schooner Una, in from Central America, says that during his thirty-five years at sea he never saw such calms as have characterized the Pacific Ocean this Summer.

Alabama has thrown the first brick from the solid South, and Kentucky follows suit, both having gone Democratic by heavy majorities. Nothing different should be expected from that section.

The next terminus of the Southern Pacific Railroad in Arizona will be called Sulphur Valley, 39.9 miles from Benson, and will be open to business some time this month.

At Eureka, Nev., July 30th, N. A. Chandler, a well-known citizen, shot and killed himself. Financial embarrassment was the cause.

For the September election, to be held in San Francisco, 40,000 voters have been registered, and registration is going on for the November election.

Schroeder, who killed Dr. Lefevre in Oakland has been held to answer without bail.

A DEMOCRATIC OPINION.

After witnessing so much mud slinging at Garfield from the Democratic press, it is refreshing to be able to read such items as the following, and which should put to blush even a Democratic editor's cheek. This honest testimonial to the character of General Garfield is from a speech recently delivered by Congressman Springer, of Illinois, whose radical Democracy cannot be questioned:

"The Republican party has nominated for their candidate for President James A. Garfield of Ohio; a man who has long been in public service, long been the leader of his party, and who stands to-day the mightiest warrior of them all, the greatest Republican member of the lower House of Congress. I know James A. Garfield by being with him in the lower House for years, and I know that there is no Republican of that body abler than he. I see that the newspapers are making charges against his character, but, my friends, I cannot say to you that they are in anywise true."

Springer is not the only prominent Democrat who has shown a regard for decency and truth, and it would be well if the Democratic press could be brought to the same sense of decency, and spare their readers the "bosh" daily and weekly spread before them. The intelligent readers becomes disgusted with the balderdash spread forth by the New York Sun and copied and recopied by every one-horse Democratic paper in the Union.

CAPITAL CHIPS.

The receipt of National bank notes for redemption for the week ending July 24th, was $4,226,000; for the same period last year, $2,319,050.

The Treasury held Saturday $361,057,050, of United States bonds to secure National bank circulation. For the week ending July 24th, $259,000 in United States bonds were deposited for circulation and $746,000 were withdrawn.

President Hayes has accepted an invitation to attend the Soldiers and Sailors reunion at Columbus Ohio, August 10th. Gen's Garfield and Sherman, and Secretary Ramsey are expected to attend.

Controller Lawrence, has issued a circular to United States Marshals in which they are directed to charge in their accounts for fees of witnesses, the expenses of government salaried officers who attend court as witnesses on behalf of the United States, and will render with the accounts vouchers for this payment made, stated in items and sworn to, as the law requires. Fees and expenses incurred, after the date of circular, in the transportation of all prisoners are to be charged in the accounts for "fees and expenses of Marshals. Marshals who are requested to remove convicts from their own districts, to prisons in other districts, should obtain the approval of the Attorney General, to the bill of expenses before including them in their accounts.

Advices received here are to the effect that track laying is progressing rapidly from Austin to San Antonia, Texas, on the extension of the inter national road which is itself an extension of the St Louis & Iron Mountain railway, and by December next there will be an air-line route, from Washington and Baltimore, thence East to Tennessee and Memphis to San Antonio. This is the line proposed by Gen. Barnes' bill to be extended to Loredo on the Rio Grande and the Mexican Congress, just adjourned authorized Tom Scott, Mr Sage, Ex-Governor John C. Brown and others, to extend the same road to the city of Mexico and Mazatlan.

Advices received by the Commissioners of Agriculture, show an almost unprecedented crop of corn. This added to the immense yield of wheat, and the more than average product of other grains, and we have a year of such plenty as has scarcely if ever been known, with the exception of some of the western counties of Kansas, where the crops were seriously injured by the drought. There will be a larger crop gathered than ever before known. The large surplus of last years crop still on hand, added to the increase crop of the present year will have a tendency to reduce the price of all breadstuffs.

Admiral Wyman's report of the alleged Spanish outrage, which has been received here, says that the Spanish vessels were justified in their action. At the cabinet meeting on Saturday, they were satisfied with the result of the investigation, and are in favor of approving Admiral Wyman's suggestions, that the circumstances do not justify a demand for an apology from the Spanish authorities. It is talked that the Cabinet will decide upon a measure, respectfully cautioning the Spanish authorities to keep a sharp look out for preventing anything likely to occur similar to the recently alleged insult to our flag.

The Census of Utah, recently completed, reveals the fact that the Gentile population has increased 200 per cent, while the Mormon increase has only been 45 per cent.

It is said that a filibustering expedition, looking to the annexation of Mexican territory to the United States, is being organized in Texas.

All delinquent receivers of public moneys at the land offices are to be promptly prosecuted.

The dory Little Western, from Gloucester, Mass., arrived at Gravesend on Sunday.

LOCAL INTELLIGENCE.

JUPITER TO THE FRONT.—Jupiter has this week boldly stepped to the front, a rich and important strike having been made in the 600-level, and our people have been much elated over it. Developments made on the 500-level led Superintendent Holmes to look for a rich development below, and his expectations have been realized, those who have examined the mine pronouncing this "strike" one of the richest and most important yet made in the district. The ore carries a large percentage of silver, and much of it ruby silver. Mr. Holmes promptly opened the mine to the public, that all might see for themselves. This strike has caused many to give up "croaking," for every mining camp has its croakers, and Bodie has its full quota of such. Bodie, today, is the best mining camp on the Pacific coast, and don't you forget it.

A WORTHY OBJECT.—This evening a benefit will be given at Miners' Union Hall to John Holland, who was so seriously injured some time ago, by an explosion in the Bodie mine. While our people have been, time and again, called upon to attend benefits tendered to the well and able-bodied men in our midst, they are now called on to give a dollar to a very worthy object, and to one who is in need of assistance to enable him to visit San Francisco, where he can obtain the best of medical skill with a view to regaining his sight. We trust that there will be a full house, and that those unable to attend the performance to be put on the boards will buy a ticket and tear it up. Let the benefit be a bumper.

KNIGHTS TEMPLAR.—During the next 30 days we shall miss many Bodieites, as the members of the Bodie Commandery of Knights Templar will leave here to-morrow for Chicago, to take part in the Triennial Conclave of the Order, they having chartered the fast freight to take the "crowd" and "store clothes" to Carson. Bodie will carry off the Grand Standard, a magnificent banner presented by the Grand Commandery of California to the subordinate Commandery sending the largest per centage of its membership to the Conclave.—Bodie sends twenty-two—which will give Bodie the Grand Standard, to be carried in the procession in Chicago.

IMPROVEMENTS.—Notwithstanding the dull times and the tightness of the Bodie money market, our town is steadily growing, and to-day there are a large number of new buildings, mostly dwellings, going up in all parts of the city. The Cal. and Nev. Telegraph Company have just completed a fine two story building on Main street, opposite the Occidental Hotel and are now snugly ensconced therein. On the extreme upper part of Main street T. E. Rutter, late of Monitor, Alpine county, is preparing to build a store, which he will open for the benefit of the residents of the South end.

GOOD TEMPLARS.—A number of our temperance people have organized a Lodge of Good Templars under the name of Mono Lodge, and this evening its officers will be duly installed at a special meeting to be held in Odd Fellows' Hall. The starters of this meritorious institution are the following ladies and gentlemen: Miss Hayden and Messrs. Band, Brock, Hinkle, Preshaw, Snyder, the three Adams brothers, Phillips, Trimble, and about twenty other ladies and gentlemen, whose names are not known to us. The Lodge will hold its regular meeting in Odd Fellows' Hall on every Monday evening.

ALL A MISTAKE.—It seems that Dalzelle was not murdered, after all the fuss that was made about his death; for Hurley, Hammond and Frost, who were known to have killed him, have been tried for his murder and acquitted! If three men shoot another to death, it is not murder but a pleasant pastime in the mountains—unless it can be proven that the three had conspired to kill their man. Out of all the murders committed in this county in the past two years, not a murderer convicted! What laws; what a country and what a peoples!

OUR BANKS.—Hon. Wm. F. White, Bank Commissioner, who recently visited Bodie on official business, has reported to the Attorney General as the result of his examination of the affairs of the Mono County Bank of Bodie, and the Bodie Bank, that they are in good condition; the assets of the former being $84,578 96 of the latter, $171,259 60.

We doubt if there are any banks in the State of California better conducted, or are more safe, than are our two Bodie banks.

JOYFUL.—The Belvidere flag was hoisted on the hoisting works of that company on Monday in honor of the starting up of the Syndicate Mill on ore from that mine. In view of the late rich strike in the Belvidere, coupled with the great developments making in the Jupiter, Superintendent Holmes has good reasons for feeling joyful and the same good reasons have made our people feel a still greater confidence in the permanency of our mines, and the town.

RICH JEWELRY.—Now is the accepted time, if you want to buy fashionable and rich gold Jewelry, diamonds, etc., or a fine watch, of any make, cheap for cash. L. Hollander will sell you anything in his line cheaper than you can get it in San Francisco, as he proposes to go East and locate. Give him a call and satisfy yourself.

ALL RIGHT.—Some apprehension has been felt by our citizens that our water works would be crippled for a time at least, by the suspension of work at the Mono, from which the supply of water was mostly obtained, but such has been dispelled by the good supply of the needed element which is being sent into the reservoir from the Champion mine. The reservoir is full and we have a good head of water on in town.

TOWNSITE SURVEY.—On Tuesday next U. S. Deputy Surveyor Scowden will file a plat of the townsite survey of Bodie in the County Recorder's office; also one in Judge Brigg's office. The survey embraces 825 lots, upon which a tax of $10 per lot will probably be levied. Next week Judge Briggs will be ready to receive applications. Applications should be promptly made that a trip to Bridgeport may be avoided, as the Judge's time is limited.

BULLION SHIPMENTS.—The following bullion shipments were made from Bodie in July through Wells, Fargo & Co.:

Standard Con., $145,018 75; Noonday, $61,493 40; Bodie, $28,632 07; Bulwer, $8,691 33; Scattering, $1,956. Total, $245,791 56.

A SUNDAY DINNER.—At Tower & Fullride's Bodie Hotel, corner of Wood street, and Mill, opposite the Standard Mill get a luxurious dinner to-morrow (Sunday). It is one of the best kept hotels in town, and its proprietors know how "to keep a hotel."

ICE CREAM.—Finely flavored ice cream for dinner at the Can Can Restaurant to-morrow (Sunday). This is a favorite place for family dinners on the Sabbath, as Callahan has a number of private rooms for family parties,

CLOSED ON SUNDAY.—Silas B. Smith is of the opinion that he can sell enough dry goods on week days to carry him over the Sabbath, and he now gives due notice that both his stores will hereafter be closed on Sundays.

FRUIT AND VEGETABLES.—E. F. Gibson, Union Fruit Market, will have a fresh stock of vegetables and fruit to-morrow (Sunday) morning. Nice ripe tomatoes for dinner will not be bad!

OH!—The Standard-News says that Iowa will go Democratic in November! Bro. Hoole must be crazy. It will go Democratic about the same time California goes Greenback.

THE USUAL DIVIDEND. The Standard Consolidated will pay its usual monthly dividend of seventy-five cents per share on the 12th instant.

BRANCH JAIL.—Col. B. B. Jackson has secured the contract for the new branch jail at Bodie. The contract price is $890.

BOARD OF EQUALIZATION.—The Board of Equalization will meet on Monday next.

New Suits.

The following new suits have been commenced in the Superior Court:

Louis Wallerstein, George Hamilton and Thomas J. Lichty vs. Stephen Gregg; Kittrell & Owen, and Huffaker.

John Furlong vs. A. B. Long and Hugh McCracken; Parker & George.

Transfers of Real Estate.

The following deeds have been recorded in the County Recorder's office:

July 30.

L. C. Hill to Irvin S. Kirkendale, lot on north side of Main street, Lundy, $100.

July 31.

C. F. Reed to Quing Zum, lot on west side of Main street, Bodie, $150.

Mining Transfers.

The following deeds have been recorded in the County Recorder's office:

July 30.

John W. Burke to Bernhard Sim, mining ground in Prescott District, $100.

July 31.

Alex. Fawcett to Wm. Thompson, 100 feet each in Pittsburg, Indian Chief, Tornado, Mountain Boy and South Star mines, White Mountains, $1,250.

C. M Willard to Wm. Kemp, 200 feet in Virginia mine, Homer District, $100.

July 30th an Italian went a short distance from McKinney's, on Lake Tahoe, to get the cows. As he did not return, a search was instituted for him, but all the trace that could be found of him was his clothing, skull and bones, as he had been attacked by a bear, killed and devoured.

Prof. Jordan has found on the Pacific coast of California and Oregon, 260 species of fish—40 of which are new to science. The largest number found at any one locality was at Monterey, comprising 150 species. The number found at San Diego is 60.

The New York Tribune says: "The Republican administrations have paid off one-third of the debt contracted through a Democratic rebellion. The people feel like trusting the same party to pay off the remaining two-thirds."

At Trenton, N. J. on Tuesday night, Goldsmith Maid's oldest colt was killed by trying to jump a fence. She fractured her shoulder blade. H. W. Smith, her owner, refused an offer of $20,000 for her some time ago.

Justice Field, one of the Justices of the Supreme Court of the United States, will preside in the United States Circuit Court at Carson on the 20th

Improvements	370 353.
Town lots	187,404.
Improvements	425,901.
Moneys	41,549.
Total, with deductions	$2,344,106.

The amount last year was as follows:

Personal	$531,239.
Real estate, other than town lots	505,398.
Improvements	291,215.
Town lots	66,352.
Improvements	264,210.
Moneys	31,805.
Total,	$1,690,219.
Tax, $49,016 91.	

This exhibit of the small increase of only $653,687 will surprise the taxpayers of our county. In common with many others, we thought the amount would be far in excess of that of last year—at least $2,000,000—making a total of $4,000,000. This was based upon the fact that the roll last year showed that property was assessed too low, more particularly that of mining. It was supposed that the general expression of dissatisfaction at that time would have remedied the evil complained of, and that this year, and hereafter, non-resident stockholders of the bonanzas of Bodie District would be required to contribute to the support of the County Government on the same proposition imposed upon its residents—equal taxation on property at its assessed actual cash value. Why should the agricultural, mercantile and mechanical interests of Mono county be taxed to their utmost tension to bear the onerous burdens imposed upon the community by a criminal record incident to the mining towns of this county? Why should the mining interest escape this great responsibility? Scan the list of taxpayers published in another column! Note the amounts set opposite the Stewarts, Summers, Huntoons, Shaws, Hunnewills, Obenchains, Ellioits, Days, Waltzes, Rickeys, and other ranchers, and compare them with those of the bonanzas! From these figures it will be seen that the farmers above named have been assessed into the tens of thousands, and the Standard mine, mill and two extensive hoisting works have not reached the paltry sum of $200,000. The roll reveals the stubborn and humiliating fact that the Standard mine—the richest gold mine in the world; valued at $3,000,000, and not for sale at those figures; whose owners—the Boyds, Cooks and Lents, received, during the six months ending June 30th, $400,000 dividends; whose shipments of bullion in July reached $145,000; a mine from which, from testimony before the late Grand Jury, $200 could be put in a miner's pocket at any time; is assessed at $100,000. The assessment is glaringly unjust, but it will, doubtless, be rectified by the Board of Equalization. Taxpayers demand it.

NEW CITIZENS.—The following persons have been naturalized in the Superior Court:

W. J. Scott, Angus A. Cameron, John F. Easton, Lewis Ouilette, Megard Majeau, C. O. Morgan, Philip Canton, Felez Leberge, Joseph Reynolds, Cyrille Ouilette, Lean Carriere, Emerie Reno, J. A. Henderson, George T. Russell, Wm. Conn, and W. J. Russell, natives of Canada; John H. Carder, of Nova Scotia; James Thornton, George Cunningham, Wm. Moony, Peter White, Patrick Regem, Peter Farrell, Patrick Morgan, John Lawlor, John Healey, and Charles O. Regan, of Ireland; Henry C Karstens, George Hachtel, and Valentine Basten, of Germany; Charles B. Anton, R. G. Murry, J. A. F. McDonald, and Thomas Steele, of Scotland; John Escallia, M. Daslugue, and Jules Agarse, of France; Carl Sargensson, Daniel Davis, John Allen, Francis Robbins, John H. Snell, Elijah Billing, John Tregoning, and Samuel Lean of England; J. J. Beckstrom, of Sweden; and Z. A. Melle, of Portugal.

HAMMOND'S TRIAL.—On Wednesday last the trial of Hammond for the murder of Dalzelle commenced and terminated by his acquital. The Jury was as follows: H. L. Leavitt, Foreman: S. A. Hopkins, E. C. Hawkins, G. T. Thompson. H. Wignorg, W. H. McKillup, Thomas Kennedy, G. W. List, E. Trask, Geo. F. Abbott, W. Levich, Frank Lobdell. The jury wasout fifteen minutes.

JURY DUTY.—We last week suggested that the County Clerk reject all names of firemen drawn from the jury box. Some have the impression that he has that right. The Superior Judge is the only one who has the power to so reject. With the list of firemen before him, it could be easily scanned, and much annoyance and expense saved.

NEW BUILDINGS.—P. Reddy has purchased a lot east of Leavitt's Hotel and will erect a one-story brick residence 25x40 feet. Judge Leavitt has arranged for an addition to his hotel. It will front the street, and be 25x60 feet, and two stories.

THE MONEY.—It appears from the Assessment Roll that on the 1st day of March, the total amount of cash in the hands of the taxpayers of Mono county amounted to the immense sum of $41,549.

TOO MANY.—Last week one of our "intelligent compositors" made us say that the tax roll this year ought to foot up $4,000,000,000. Drop the three last 000, and it will be as we intended.

The Chicago Tribune says: "There is no more reason why an Irishman should be universally regarded as a Democrat than there is why an American should be regarded as a Republican. In fact, the great bulk of the Irish population in this country lives in the North and in Republican States by choice; and if the Irish in large numbers should break away from the mere habit of voting the Democratic ticket they would discover closer ties of sympathy with the Republican party than they have ever had with the Republican party."

BODIE CHRONICLE

THE CHRONICLE.

BODIE, AUGUST, 7, 1880.

CLEANLINESS IS NEXT TO GODLINESS.—Here's a little lesson on cleanl n ss and neatness that mothers may well consider. Says anexchange:

A very fashionable lady, who fairly doted on her children, and is very particular about their toilets, had a narrow escape last Sunday from losing one of her darlings. It was leaning out of a third story window, when it lost its balance, and in a moment more it would have been dashed to pieces on the crowded pavement below. Fortunately the mother seized it just as it was disappearing over the window-sill. Clasping the saved cherub to her breathless breast, the fond mother exclaimed as tears of gratitude flowed from her uplifted eyes: "If that child had fallen into the street with that dirty dress on, I would never have forgiven myself." And she proceeded to dress it up in style, so that come what might, the family would not be disgraced.

Potato water in which potatoes have been scraped, the water being allowed to settle, and afterward strained, is good for sponging dirt out of silk.

Cold boiled potatoes used as soap will clean the hands and keep the skin soft and healthy. Those not over boiled are the best.

Straw matting may be cleaned with a large coarse cloth, dipped in salt water, and then wiped dry. The salt prevents the straw from turning yellow.

No manner of speaking is so offensive as giving praise and closing it with an exception.
